

# THE EASTERBUNNIES

by Biljka

Dear Coloring Enthusiasts, Big and Small,

Meet the Easterbunnies – a happy family of Easter bunnies living in their secret Easter bunny garden called Easterville. This coloring book follows twelve cute Easterbunnies on their adventures.

In addition, each Easterbunny comes with a challenging and creative task for you to complete. There are no wrong answers here – anything that you can imagine and think of is correct. The purpose of these tasks is to spark creativity. For the same reason, there are no suggested answers at the end.

This coloring book can be used in two ways. If you print it out, you can color the Easterbunnies with different techniques. Alternatively, you can use digital tools to color the bunnies. The tasks can be done individually, in pairs, or in groups. They can be done through collaboration or competition. In addition, this coloring book is also suitable for use as PREXcoaching® material.

Please note that the images in this coloring book were created with the help of artificial intelligence. While this coloring book is here for your enjoyment and learning, I kindly ask that you use it only for personal and educational purposes.

Furthermore, let's explore, learn, and create together – enjoy your creative process and have fun! Feel free to share your visions of the cute and whimsical Easterbunnies.

Happy Easter, everyone!
